SAFETY & HEALTH POLICY

Enshrined as a core value in our business, we are mindful of the safety and health risks. In our business the safety and health of our employee's takes priority over everything we do as a business **"SAFETY TODAY & SAFETY FOR LIFE"**

We shall demonstrate an awareness of all safety and health risks to the undertaking of our assignments, and shall implement practices to minimize the impact of these.

In order to achieve this vision, we shall apply the following;

1.0 Employees

Employees are to internalize the safety and health policy, and are responsible for taking care of their own health and safety, and that of their fellow colleagues. To achieve this, there shall be continuous review of the Safety & Health practices and on-going educational programs for all employees.

2.0 Legal

We recognize, and shall abide by the entire legal framework that our business has to operate within, that will ensure that we provide a safe working environment, safe work equipment and safe working procedures.

3.0 Clients and stakeholders

We are committed to ensuring the safety of our customers and anyone else affected by our business activities. We shall actively seek to provide our clients with services that comply with, and exceed their safety and health requirements.

ENVIRONMENTAL POLICY

Enshrined as a core value in our business, we are mindful of the impact that our business has on the environment around us, and we shall therefore, in undertaking of our assignments, demonstrate a high level of awareness of actual and potential environmental impacts, and shall exercise our expert action to keep impacts within neighborly limits.

In order to achieve this vision, we shall apply the following;

4.0 Employees

Employees are to internalize the environment policy, and are responsible for taking care and minimizing the impact on the environment they are working within. To achieve this, there shall be continuous review and update of the Environmental Practices, adherence thereof, and continuous educational programs for all employees.

5.0 Legal

We recognize, and shall abide by the entire legal framework that our business has to operate within, that will ensure that we provide a minimal environmental impact (by doing Environmental Impact Assessments) and environmental working procedures.

6.0 Clients and stakeholders

We are committed to ensuring minimal impact on the environment that we work within and around due to our business activities. We shall actively seek to provide our clients with services that comply with, and exceed their environmental requirements.
